

COOL SONGS FOR RADIO BY AUSTRALASIAN ARTISTS/BANDS

The following is a list of songs that are suitable for radio airplay. A significant number of songs mentioned in this listing have little or no radio airplay – although if these songs had voices they'd be crying out for airplay because of their lyrical and/or musical excellence. No distinction is made between artists/bands that are on Christian record labels or mainstream record labels as this distinction has been made for too long and only serves to perpetuate a pharisaical separatistic mindset that classifies and divides artists/bands into one of two camps. Artists & bands are listed in alphabetical order. This resource will be especially helpful for radio announcers. Please email Frank Rasenberger frank.rasenberger@lca.org.au if you want to know the musical style/genre of a particular song. Feel free to email him if you know of another song (and the particular CD it is from) that you would like to see included on this list.
