## COOL SONGS FOR RADIO BY OVERSEAS ARTISTS/BANDS

The following is a list of songs by overseas (ie. **non**Australasian) artists/bands that are suitable for radio airplay. A significant number of the songs mentioned in this listing have little or no radio airplay – although if these songs had voices they'd be crying out for airplay because of their lyrical and/or musical excellence. No distinction is made between artists/bands that are on Christian labels or mainstream labels as this distinction has been made for too long and only serves to perpetuate a pharisaical/separatistic mindset that divides artists/bands into two camps. Artists & bands are listed in alphabetical order. This resource will be especially helpful for radio announcers. Please email Frank Rasenberger <u>frank.rasenberger@lca.org.au</u> if you want to know the musical style/genre of a particular song. Feel free to email him if you know of another song (and the particular CD it is from) that you would like to see included on this list.

**NB.** The \* symbol that is found next to some of the song titles simply means that the particular song has been posted on the 'Cool Songs for Radio' Facebook Page at <u>https://www.facebook.com/groups/coolsongsforradio/</u> Feel free to join this group on FB.
